

Nushagak River Restricted Land Access

Choggiung Limited has revised its land policy by restricting hunting of big game (moose and caribou) and predator species (brown bear, black bear, and wolf) on Choggiung Limited lands adjacent to the shoreline of the Nushagak River spanning from Black Point to the confluence of the Iowithla and Nushagak Rivers. This change allows only shareholders of Choggiung Limited and Bristol Bay Native Corporation (BBNC) to hunt big game and predator species during August 20 – 31.

Non-shareholder Nushagak, Togiak, and Wood River watershed residents may have permitted access and permission to hunt big game beginning September 1 through the conclusion of the Unit 17c Fall Moose Season annually.

For more information call: (907) 842-8143 or email: land@choggiung.com
